

# Compliance Chronology Validation

**Classification:** Evidential Export  
**Export grade:** Regulatory / evidential  
**Artifact ID:** gallery\_chronology  
**Generated (UTC):** 30 June 2026 at 12:00 UTC  
**Prepared by:** Pleerity Enterprise Ltd  
**Contact:** info@pleerityenterprise.co.uk | pleerityenterprise.co.uk  
**Confidentiality:** For authorised review only. System provenance metadata is retained in governance files regardless of white-label presentation.

**Export grade:** Regulatory / evidential

**IMMUTABLE GOVERNANCE ARTIFACT**

This artifact is stored at generation time with manifest checksums; re-download returns the same bytes.

**Artifact ID:** gallery\_chronology | **Semantics:** v1 | **Scope:** portfolio  
**Generated (UTC):** 30 June 2026 at 12:00 UTC | **Status:** live

Accessibility-enhanced PDF: logical section headings, improved table contrast, and selectable text. Not PDF/UA certified.

## Intended use

Intended as a readable chronological record of system events supporting evidentiary review and governance audit.

This report does not constitute legal advice. Evidence and compliance conclusions remain subject to independent verification of source documents, issuing authorities, and applicable external registries.

## Executive summary

Overall compliance posture and action posture at generation time.

Gallery validation — representative compliance posture.

| Metric               | Value |
|----------------------|-------|
| Obligations in scope | 1     |

This export is generated for presentation gallery validation only.

## Evidence sufficiency and audit readiness

Indicators summarise whether evidence and delivery proof appear sufficient for independent review at the report date.

| Indicator                   | Value | Interpretation                            |
|-----------------------------|-------|-------------------------------------------|
| Evidence completeness       | 0%    | 0 of 1 obligations have evidence on file. |
| Delivery proof completeness | N/A   | No delivery proof records in scope.       |

| Indicator                    | Value                                    | Interpretation                                          |
|------------------------------|------------------------------------------|---------------------------------------------------------|
| Audit readiness              | Substantially ready — limited exceptions | Confidence level: Medium                                |
| Unresolved evidence exposure | 1                                        | Obligations requiring critical or high-priority action. |

## Evidence matrix

Central evidence matrix mapping each obligation to status, evidence files, delivery proof, expiry, and risk. Compliance conclusions must be read against this matrix.

| Obligation             | Status  | Evidence | Delivery | Expiry / Risk                 | Action | Updated |
|------------------------|---------|----------|----------|-------------------------------|--------|---------|
| Gas Safety Certificate | Overdue | No       | No       | 2026-01-01 / Critical (-181d) | Yes    | —       |

Evidence remains subject to independent verification of source documents and issuing authorities.

## Recommended next actions

Prioritised actions to improve compliance position. This is operational guidance, not legal advice.

1. [Critical] Review and remediate. Gas Safety Certificate is overdue and requires attention. Evidence: Valid Gas Safety Certificate (CP12). Timeframe: Before 2026-01-01.

## Compliance chronology

Chronological record of compliance-related activity affecting this property or portfolio. Events describe business impact; forensic audit codes are listed in the technical appendix where provided.

| Date & time             | Event                                | Actor                           | Summary                                                       |
|-------------------------|--------------------------------------|---------------------------------|---------------------------------------------------------------|
| 13 June 2026, 13:15 UTC | Electrical safety concern identified | Automated Compliance Monitoring | A new electrical safety concern was recorded (high priority). |
| 13 June 2026, 13:15 UTC | Compliance score revised             | Automated Compliance Monitoring | Compliance score reduced from 92 to 74.                       |
| 14 June 2026, 09:01 UTC | Evidence verified                    | Automated Compliance Monitoring | Gas Safety Certificate verified and accepted.                 |

## Technical audit record (appendix)

Technical audit record — original system actions, identifiers, and precise timestamps preserved for forensic review.

| Timestamp (forensic)           | Original action             | Actor ID | Resource | Event ID |
|--------------------------------|-----------------------------|----------|----------|----------|
| 2026-06-13 13:15:42.445699 UTC | RISK_SIGNAL_CREATED         | —        | —        | —        |
| 2026-06-13 13:15:43.514918 UTC | RISK_SIGNAL_REGEN_COMPLETED | —        | —        | —        |

| Timestamp (forensic)              | Original action          | Actor ID | Resource | Event ID |
|-----------------------------------|--------------------------|----------|----------|----------|
| 2026-06-13<br>13:15:47.415473 UTC | COMPLIANCE_SCORE_UPDATED |          | —        | —        |
| 2026-06-14<br>09:01:42.754823 UTC | DOCUMENT_VERIFIED        | —        | —        | —        |
